Re: Letter of Recommendation
Booth, Ern Straughan & Hiott, Inc.

To Whom It May Concern:

It is with pleasure that I offer this letter of recommendation for BESH. I have worked directly with both Rob Ern and Duane Booth on numerous projects over the past twenty years. Of particular note are Stonecrest and JB Ranch, both of which are large PUDs totaling over 3,000 residential units and a substantial amount of commercial property. A major component of these projects was the water and wastewater infrastructure. In the case of JB Ranch, not only did it require the design and engineering of the on-site utility infrastructure, but design and engineering of Marion County's off-site infrastructure as well. Because Marion County had purchased the utility company that serviced JB Ranch much of the data on the system was incomplete and in some cases incorrect.

Given the broad experience of BESH in all aspects of engineering and design of major projects and my personal knowledge of the quality of their work, I highly recommend BESH. Please give me a call if you have any questions or would like to discuss BESH in more detail.

Sincerely,

L. Hall Robertson, Jr.
President
Stonecrest Management, Inc., General Partner
